

Pipeline Assessment Analyst/Technician

RA Consultants, LLC, located in Cincinnati, Ohio, is seeking a motivated analyst/technician to perform Quality Assessment of Condition Assessment Sewer Inspections and Reports for compliance with NASSCO Pipeline Assessment Certification Program (PACP) standards and client specifications. The capacity to learn new processes is critical, as well as having good verbal and written communication skills, and being able to work well in a team environment. This position will provide exposure to a wide variety of tasks, offering hands on work experience with seasoned professionals.

Requirements and Job Duties:

- Candidate must maintain a valid Ohio Vehicle Operator's License.
- Candidate must possess current NASSCO PACP certification (MACP and LACP also preferred)
- Intermediate knowledge and skill level with Microsoft Office and similar PC applications.
- Experience with CCTV database and coding software (Pipe-Tech, PipeLogix, or Similar) and collecting attribute and defect data related to sewer infrastructure
- Experience reviewing and coding PACP inspections
- Familiarity with GIS and Asset Management Systems
- Ability to read and understand digital maps/plans for sewer assets.
- This position may also perform and support staff in routine field operations.
- Ability to collect field measurements and other utility asset attribute information through the use of tablets and other mobile devices
- Ability to follow instructions and work in an organized and safe manner.
- Ability to work 40 hours/week (part-time work may be available depending on circumstances)
- Salary Range: \$18.00 to \$28.00 per hour, depending upon qualifications. Full-time positions offer an excellent benefits packages including insurance, 401K program, and paid time off.

Preferred Attributes:

- 3 or more years coding and/or reviewing PACP inspections
- Experience working with water, wastewater and stormwater utilities
- Familiarity with pipeline rehabilitation methods and techniques
- Experience collecting, creating, formatting and editing data for use in GIS and other applications.
- Experience with Esri ArcGIS and/or CAD software packages is a plus.
- Experience with and certified in Confined Space Entry

Working Conditions:

- Primarily Office Environment
- Occasional exposure to traffic hazards and inclement weather.
- Must be able to lift up to 60 pounds.
