

Survey Field Technician

RA Consultants, LLC, Blue Ash, Ohio, is looking for someone who is responsible, motivated, and can make decisions in the field. This position requires the employee to perform boundary, control, topographic and construction staking, as they relate to land surveys within projects. You will be working on a wide range of projects primarily in the field, although there will be some office work at times.

Job Requirements:

- High school diploma required.
- Valid driver's license required.
- Possess a minimum of 5 years related survey fieldwork.
- Ability to operate field equipment including Total Stations, Data Collectors and GPS.
- Proficiency in AutoCAD and/or MicroStation is not required, but would be a big plus.
- Must be able to lift 50 lbs.
- Strong attention to detail with excellent analytical and judgment capabilities.
- Excellent communication skills.
- Position requires work Monday through Friday, with occasional evening and weekends.

Responsibilities include:

- Assist in the preparation of Land Survey documents - boundary surveys, topographic surveys, record plats, as-built drawings, plot plans and ALTA/ACSM survey and generally a support to design and survey teams
- Courthouse and records research; recording and filing documents and preparation of legal descriptions. Familiarity with SW Ohio counties is preferred.
- Computations for boundary and construction staking, uploading and downloading of data collectors.
- Field Surveying including boundary surveys, development and utility construction staking, topographic surveys, and as-built surveys.
- Work independently as a one-person crew or with others as required.
- Continually advance knowledge and abilities with upgrades in technology and equipment.

RA Consultants, LLC is an Equal Opportunity Employer and a Drug Free Workplace.

Qualified candidates may submit a resume and cover letter with salary requirements to: careers@raconsultantsllc.com.
